KENT GABRIEL QUILAO

Bayanan, Muntinlupa City • quilaokentgabriel@gmail.com • 0976-322-3802

PROFESSIONAL SUMMARY

CompTIA A+ certified IT professional with hands-on experience in LAN/WLAN troubleshooting, VLAN configuration, and end-user support. Proficient in network protocols including OSPF, EIGRP, and inter-VLAN routing, with practical lab experience using Cisco Packet Tracer. Seeking a Junior Network Technician or IT Support role to apply networking knowledge and technical support skills in a professional environment.

EDUCATION

Pamantasan ng Lungsod ng Muntinlupa (PLMun) *2022–2026*
Bachelor of Science in Computer Science — Expected June 2026
GPA: 1.45 / 5.00 | Muntinlupa City

- Relevant Coursework: Computer Networks, Database Management, Software Engineering, Full Stack Web Development, Data Structures & Algorithms

AMA Binan School, AMA Computer Learning Center (ACLC San Pedro) *2018–2022*

CERTIFICATIONS

- CompTIA A+ — Certified (2026)
  Verification Code: 3995f4d622a94eebadc7dbd494102a0d | verify.comptia.org

EXPERIENCE

IT Support Volunteer *2024–Present*

- Provided technical assistance to students and peers for basic network and system issues
- Troubleshot connectivity, IP configuration, and common OS problems
- Assisted in maintaining functional and reliable computer systems

IT Consultant Trainee — GammaSynergy *2026–Present*

- Gaining hands-on exposure to Odoo ERP system including business modules and workflow configuration
- Undergoing IT consultancy training covering business operations and system implementation

PROJECTS

Networking Labs (Cisco Packet Tracer & Virtual Lab) ***Personal Learning Project***
https://imacqwerty.github.io/Hireme-Kent/

- Configured VLANs, Router-on-a-Stick, DHCP, and inter-VLAN routing
- Implemented and tested OSPF and EIGRP routing scenarios
- Verified connectivity using ping, traceroute, and routing table analysis

SKILLS

IT Support & Networking

- LAN/WLAN setup & troubleshooting, IP addressing, subnetting, DHCP
- Dynamic Routing Protocols (OSPF, EIGRP), Layer 3 Switching/Routing, VLANs
- TCP/IP, DNS, network hardware (switches, routers, access points)
- Networking Tools: Cisco Packet Tracer, Spiceworks

Systems & OS

- Windows 10/11 installation, configuration, and troubleshooting
- Command line tools — ipconfig, ping, tracert, sfc, chkdsk
- Active Directory user management
- Kali Linux (Basics), macOS basic familiarity
- PC troubleshooting, assembly, maintenance, backup & restore

Security

- Malware identification and removal procedures
- IT security fundamentals and best practices
- BitLocker, Windows Defender, UAC

Support & Operations

- Printer troubleshooting — laser, inkjet, thermal
- TeamViewer remote support, Spiceworks ticketing system
- Ticketing, documentation, and change management basics
- Backup types and recovery procedures

Soft Skills

- Client-focused communication, problem-solving & documentation, detail-oriented
